ANNUAL REPORT OF THE
SCHOOL BOARD,
FOR THE
FISCAL YEAR ENDING FEB. 14, 1903.

Making our report we would say that our schools the past year have been successful and satisfactory. Although the attendance in some instances have not been all that could be desired.

Practically the same teachers have been employed as last year, all of them teachers of ability and experience, who have discharged their duties with general satisfaction.

We would urge upon parents the importance of lending all the assistance possible to teachers, and by cooperation and union of purpose, great good may be accomplished.

Many citizens and parents have visited the schools thereby showing their interest in the progress and welfare of the scholars. We hope that in the future their visits will be more frequent, believing that the scholars appreciate their attention, and will not only strive harder to do better school work, but will be actuated to improve their deportment and appearance.

We should keep abreast of the times in school advantages, which we cannot do without the raising of money for school purposes. We would recommend the raising of enough money to give each school at least three terms per year of ten weeks each.

The outlay will be small, and we ask how money can be better used than in the cause of education, fitting our boys and girls for the various vocations of life.
